Yesterday's Post reports that Judge Oren Lewis ordered Sculz to tell Hunt the source of his false report that Hunt was acting as station chief the Oswald time.

Sculz' attorney is the name of a former Republican Secretary of State. Maybe more than one of that name.

Do you think you want to tell Ellis Rubin that you have a client who can perhaps make his case against Weberman, as knowing in advance about those pictures? In return for the help we think Hunt can provide us.

I have the tape of telling Weberman in advance of the double-checking I had made of those pictures.
